

Creativity and Passions

Description

Today's WordPress prompt asks me that ***if you didn't need sleep, what would you do with all the extra time?***

Well, like any other hypothetical situations, this shall also need a few assumptions:

- The world functions in these extra night hours, just as it's does during daytime. Offices are open, people are adjusted to night activities, just like day to day ones.
- There are no complications of sleep deprivation.

Having said that, personally I shall utilise this extra night time to ***pursue my passions***. Work in daytime and creativity / passions during night time.

And for what my passions are, do read one of my earlier posts:
